

Zone One Energy Announces Expansion into Westchester County

New York City (February 5, 2018): Zone One Energy LLC is pleased to announce that it is expanding its service territory into Westchester County.

Since the launch of Zone One in early 2015, the company has been focusing its business development activity within the five boroughs of New York City, where it offers a unique guaranteed savings product to the City's electric customers.

Ari Green, Vice President of Business Development at Zone One, stated that "Today's announcement is part of Zone One's long term growth strategy, where we methodically expand our product offering, both in terms of the types of customers that we serve, as well as the geographical area within which we provide our guaranteed savings product."

"We are very excited to be offering our product to the residents of Westchester," Mr. Green continued, "and view this important milestone as a key component of management's overall expansion plans throughout the Northeast region."

About Zone One Energy

Zone One Energy LLC is a licensed energy supplier that serves electric customers in New York City. The company is dedicated to providing its customers with a guaranteed savings product that is designed to provide a supply rate that is lower than what would have been paid to the utility under default service. Zone One services residential, business, manufacturing, retail and healthcare clients of all sizes.
